Company Description

RTx is a leading manufacturer of Filter, Duplexer, Multiplexer, VCO, PLL Synthesizer, HPA, LPA, and Fiber Optic Transceiver.

RTx has been Established In 1999 and focused on developing RF and Microwave components and modules for various kinds of Wireless Systems.

We are committed to create High Quality Products and to provide Customer Support.

Product

Cavity RF filter

Function and Usage

RTx Technology provide cavity filters from range of 100MHz to 15GHz. Our cavity items have low insertion loss, excellent temperature stability and high power capability. It is possible to make multiplexers from 3 to 11 bands and it can offer excellent characteristics. We have several designs that meet various customer requests as well as custom designs to fit the needs of point to point & multipoint radio market.

Ceramic RF filter

Function and Usage

RTx Technology provides excellent ceramic solutions for customers all over the world. We can make ceramic products from 300MHz to 6GHz as TEM mode ceramic technology.
