Company Description

SconAI provides the world's fastest and most accurate simultaneous AI interpretation. Our flagship product, SconChat, supports 20+ languages simultaneously, with ultra-low latency of under 1.2 seconds. Built around our vision of Spatial CONnectivity, SconChat empowers users to not only overcome language barriers, but to do so comfortably and intuitively.

Product

SconChat

Function and Usage

SconChat provides both text and audio interpretation through context-tailored interfaces. Whether you're traveling abroad, meeting with a foreign buyer, or hosting an international conference with 3,000 multilingual attendees, SconChat delivers seamless interpretation with elegant operational simplicity.

Marketing and Selling points

SconChat requires no downloads, no pauses between sentences, and no button toggling. Conversation should be effortless--even across language barriers--and SconChat demonstrates our commitment to this ideal. With ultra-low latency and human-like interpretation accuracy, SconChat delivers the world's first truly practical and viable AI interpretation solution.
